

The wind turbine you want to live next to

Did you know the Wind Tulip can...

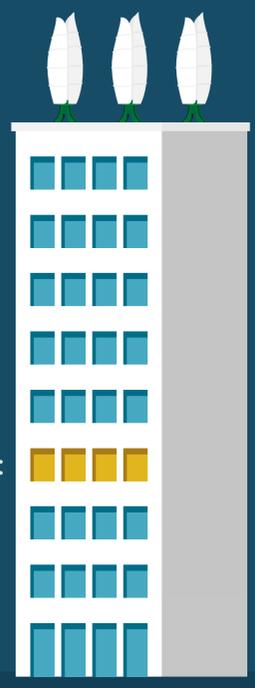

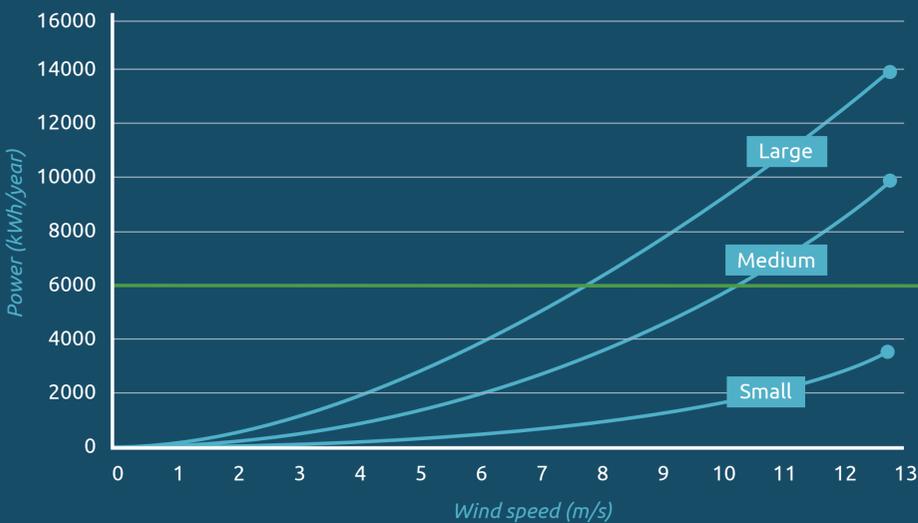

... Get you to work

With a cluster of Wind Tulips your employees will be able to charge their e-scooters

... Power your office

A cluster of medium Wind Tulips in a wind speed of 10 m/s is enough to power your office floor

Compared to a regular turbine, it is...

Regular turbine

... Quiet

A Wind Tulip next to your bedroom window will let you sleep like a tulip...

Wind Tulip

... Cost effective

The Wind Tulip has a lower cost of ownership and is very durable

... More eco-friendly

Because of the size, production is more eco-friendly and it will take up less space in the surroundings.

... Safe for wildlife

Due to the shape, the Wind Tulip is safe for birds

... Small!

Wind Tulips can be placed on your roof
