Charging Bench

Work & Charge / Chill & Charge

Working and relaxing outdoors is made easy by our Charging Bench! This bench will provide you with sustainable energy to charge your bicycle, laptop or phone.

This charging station comes integrated with a semi-transparent solar panel and 4 charging points that can be customized by the customer. The solar panel is covered with an impact-resistant transparent plate, making sure that the sun reaches the panel without compromising its safety. The bench can be installed anywhere in the world.
