

Tulip Power

Let us Power you

Sun & Wind (Type ZW)

The Sun & Wind model is the ultimate choice for an off-grid charging solution. Integrated with a solar panel and a one-meter version of our aesthetic and efficient wind tulip, this charging station will generate power regardless of any type of weather. Electricity is stored within the unit, available at the push of a button. Thanks to its height and colors, this model is easily spotted by its users.

SPECIFICATIONS
